

RESTORING THE NORTH

International conference on restoration of damaged ecosystems in northern regions
Iceland May 23-26, 2011

Topics & key note speakers:

➤ Challenges and opportunities for restoration in the north.

Keynote speaker: Professor **Bruce Forbes**

➤ Legislation, policy and implementation of restoration.

Keynote speaker: Professor **Susan Baker**

➤ Setting objectives and evaluating success in restoration.

Keynote speaker: Professor **Joy Zedler**

➤ The role of theory in restoring ecosystem structure & function.

Keynote speaker: Professor **Jim Harris**

Venue:

➤ The conference starts in Stykkisholmur, a small town on the coast of Breidafjörður, the primary site of restoration of the rare White-tailed Eagle in Iceland.

➤ From Stykkisholmur a field excursion will take us through wetland and heath land restoration sites, eroded highlands and Thingvellir, a UNESCO World Heritage site.

➤ The last day of the conference will be in Reykjavik, the first site of human influence on Icelandic ecosystems.

Important Dates

➤ **December 1, 2010.** Opening of registration and abstract submission

➤ **January 15, 2011.** Deadline abstract submission

➤ **February 15, 2011.** Notification of acceptance
